

BRINGING NATURE HOME

RENEWING OUR WORLD WITH NATIVE PLANTS

An evening with Doug Tallamy

DOUG TALLAMY

author of *Bringing Nature Home*

Wednesday, May 16 • 7PM

*The Carole and Barry Kaye Performing Arts Auditorium
at the FAU campus in Boca Raton; doors open at 6PM*

Tickets \$5 in advance • \$10 at the door

Group rate is available for 20+ tickets. For group sales contact Anne Henderson at 561-252-6444 or Ahender8@fau.edu.

**Purchase tickets online at:
bringing-nature-home.eventbrite.com**

For general questions, contact 561-352-7835 or Education@AudubonEverglades.org.

Doug Tallamy is currently professor and chair of the department of entomology and wildlife ecology at the University of Delaware in Newark, Delaware, where he has taught insect taxonomy, behavioral ecology, and other subjects. Chief among his research goals is to better understand the many ways insects interact with plants and how such interactions determine the diversity of animal communities.

Because our yards and gardens are essential parts of the terrestrial ecosystems that sustain humans and the life around us, it is essential that we keep them in working order. Tallamy will discuss the important ecological roles of the plants in our landscapes, emphasize the ecological, educational, physical, and emotional benefits of designing landscapes with these roles in mind, and explore the consequences of failing to do so. Managing landscapes in this crowded world carries both moral and ecological responsibilities that we can no longer ignore.

One tiny change can save the ecosystem!
